By the night before a test, you should already have a good baseline of knowledge on the test topics. That means your goal here is to review and refresh. If your teacher gave you a study guide, start with that, quizzing yourself as you go along. Refer to your other materials if you can't remember an item on the guide, and then write it down.

How to Study the Night Before a Test - ThoughtCo

To cram the night before a test, only focus on the main ideas or formulas that will be on the test so you're not wasting time on smaller, less-important details. Also, try to find summaries of any chapters you need to study, or just skim them and write down any key ideas.
