Technically, it isn't really sex education at this age. It is really just about letting your child explore their whole body and to start pointing out simple differences between boys and girls. When naming the parts of their bodies you can also include their penis or vulva and also talk about what they can do - 'yes, that is your penis and your wee (urine) comes out of there!'.

Parents should begin the sex education process long before it starts in school. The introduction of formal sexual education in the classroom varies; many schools start it in the fifth or sixth grade — and some don't offer it at all. Topics addressed in sex-ed class can include anatomy, sexually transmitted diseases (STDs), and pregnancy.
